

Six Million Crucifixions
By Gabriel Wilensky
Review by Walter S. Zapotoczny Jr.

"The Christian background of persecution, discrimination, demonization, segregation, vilification and victimizations of Jews and Judaism constitute a crime against humanity," writes Gabriel Wilensky in his compelling new book *Six Million Crucifixions*. While this might seem a bit much for some to accept, Wilensky sets about proving it in this well written book.

He takes the reader on a journey from the death of Jesus Christ, through the early teachings of the Christian Church, through medieval superstitions, and finally to the Holocaust and the complacency of the Roman Catholic and Protestant Church in the destruction of over six million Jews by the Nazis and their helpers.

If the reader had ever doubted the attitude of the Christian Church toward the Jews, Wilensky dispels it in this well researched and well documented volume. He writes about the Christians' use of the Jews as a scapegoat down through the ages and their depiction as the "killers of Christ" and the deniers of the "Messiah." To the ignorant, persecuted, and superstitious people of the Rome of Jesus Christ, the message resonated. As the reader follows Wilensky's descriptions of what the Church did for two millennia in the name of salvation, the reader can not help but be amazed. It is even more amazing that the original portrayals of the Jew still resonate today with supposedly educated people. The Nazi regime took full advantage of the position of the Christian Churches towards the Jews and turned the Church's acquisitions into the Holocaust. If we can not learn from books like *Six Million Crucifixions*, what fate is in store for the Jew tomorrow?

I recommend *Six Million Crucifixions* to anyone who is willing to put aside their religious convictions for a moment to discover the truth.
